

Benelux #lightwave Resource (BLR) back in the air **3D animatie (Lightwave)**

Gepost door: Charlot Cobben

Geplaatst op: 12/10/2011 11:22:00

After half a year of downtime, the [Benelux Lightwave Resource](#) website is back in the air. Better, easier and versatile with already hundreds of free Lightwave scenefiles, objects, environment and textures. And we are not done yet filling the database!

Read more for details.

"from the BLR website"

We have changed the website from the (hacked) community based website to a download repository for Lightwave3D related files. Here you will find high quality objects, scenes, plugins and much more! The website still has many community features build in! Just register (it's free!!) and you will have following privileges :Add to to the repositoryDownload from repositoryCommunicate with other users
Set notification for any or all categories to be notified when new updates are posted!Get on the mailing list for general updates and news related only to BLR. Rate contentLeave comments Search by tagsView contents of ZIP fileUsers that have previously registered to the "old" website can login using their old credentials. Enjoy!
